Training Wheels: On-Road Bicycle Facility Design Training

July 11, 2014 9:00am - 3:00pm

Grand Blanc, MI 48439

Pre-registration is required. Space is limited. Deadline: June 27, 2014

Training Wheels is an educational course on the planning and design of on-road bicycle facilities. It consists of two hours of classroom instruction on the AASHTO Guide for the Development of Bicycle Facilities, followed by an on-road, bicycling segment. During this part, we will casually ride through the community and analyze the types of on-road facilities presently available or needed. There will be many stops to point out potential facility types, followed by a group exercise and discussion, questions from participants, and a brief wrap-up.

Target Audience: This course is for City and MDOT managers, engineers, planners, elected officials, DDA staff, the Chamber of Commerce and other stakeholders that can help communities educate others and provide on-road bicycle facilities.

Education Credits: This course is eligible for six (6) Professional Development Hours (PDH) for Professional Engineers (PE). Certified Planners may self-report up to six (6) Certification Maintenance (CM) hours.

Instructors: Tim Gustafson, AICP and Nathan Roseberry, PE T.Y. Lin International

Please Note: Class is intended to accommodate all levels of users. Please dress appropriately as we will bike, rain or shine.

Required Materials: Bicycle and Helmet. Please let us know if you need assistance in obtaining these items for the class.

Class Size: Maximum of 25 participants.

Registration: **FREE!** Course fee provided by MDOT's Intermodal Policy Division. Lunch and refreshments included.

**To register: send your name, address, organization, and contact information to:
Jennifer Burger at (810) 285-2210 or JBurger@Crim.org**
